READING 1 GRADE LEVEL 1

3-4 letter words, long vowel sounds and sound-letter correspondences	Reviews				
Review Lower Case Letter Review Consonant Review Lidentify the letters of the alphabet in lower case (Review) Consonant Review Lidentify initial and single consonant sounds and sound-letter correspondences, final consonant sounds and sound-letter correspondences, medial consonant sounds and sound-letter correspondences, medial consonant sounds and sound-letter correspondences and correctly read 3-4 letter words, long vowel sounds and sound-letter correspondences Patterns Recall a three-part pattern from memory; students identify vowel-consonant patterns such as CVC, CVCV, CVCV, etc Tell whether pictures, letters or shapes are alike or different, classifying information; students classify various groups of items (Review) For Word Families Antonyms Definition and examples of antonyms; students practice finding antonyms for words Definition and examples of homophones; students learn that words can sound alike but have different meanings Compound Words Definition and examples of compound words; students identify compound words Synonyms Definition and examples of phonograms, students practice finding phonograms Prefixes Correct use of the suffixes /s/, /es/, fies/,		Lesson Title			
Review Consonant Review Recall at the Review Review Review Consonant Review Consonant Review Consonant Review Consonant Review Consonant Review Consonant Review Recall Attention Recall Review Consonant Consona	1	-	Identify the letters of the alphabet in upper case (Review)		
final consonant sounds and sound-letter correspondences, medial consonant sounds and sound-letter correspondences, blends and digraphs Identify short vowel sounds and sound-letter correspondences and correctly read 3-4 letter words, long vowel sounds and sound-letter correspondences Patterns Recall a three-part pattern from memory; students identify vowel-consonant patterns such as CVC, CVCV, CVCV, CVCV, etc Classifying Tell whether pictures, letters or shapes are alike or different, classifying information; students classify various groups of items (Review) Word Analysis Changing the first or last letters to form word families Antonyms Definition and examples of antonyms; students practice finding antonyms for words Pefinition and examples of homophones; students learn that words can sound alike but have different meanings Compound Words Definition and examples of compound words; students identify compound words Phonograms Definition and examples of phonograms, students practice finding phonograms Pefixes Correct use of prefixes including the prefix /ur/ Suffixes Correct use of the suffixes /s/, /es/, /ing/, /ing/, /ed/, etc. Syllables Divide words into syllables, count the number of syllables in a word Root Words Root words without spelling changes, root words with spelling changes Introducing Nouns Students learn the definition of nouns and to find nouns in sentences Students learn the definition of verbs and to locate verbs in sentences Students learn the definition of verbs and to locate verbs in sentences Students learn the definition of verbs and to locate verbs in sentences Predicting Collecting Tell what will happen next in a story; students recognize that certain actions might result in certain outcomes Comprehension Elember 1 definity main idea and details, recognize the title as a source of the main idea, determine the key words and topic sentence Interpreting Make an inference based on characters and character traits, make an inference based on feelings Diriemene Students	2		Identify the letters of the alphabet in lower case (Review)		
Sate	3	Consonant Review	final consonant sounds and sound-letter correspondences, medial consonant		
Classifying Tell whether pictures, letters or shapes are alike or different, classifying information; students classify various groups of items (Review) Word Analysis Word Families Changing the first or last letters to form word families Antonyms Definition and examples of antonyms; students learn that words can sound alike but have different meanings Homophones Definition and examples of compound words; students identify compound words Compound Words Definition and examples of compound words; students identify compound words Synonyms Definition and examples of phonograms, students practice finding phonograms Phonograms Definition and examples of phonograms, students practice finding phonograms Prefixes Correct use of prefixes including the prefix /ur/ Syllables Divide words into syllables, count the number of syllables in a word Root Words Root words without spelling changes, root words with spelling changes Introducing Nouns Students learn the definition of nouns and to find nouns in sentences Introducing Verbs Students learn the definition of verbs and to locate verbs in sentences Plurals Students learn that plural means more than one; students learn how some plurals are formed Predicting Tell what will happen next in a story; students recognize that certain actions might result in certain outcomes Comprehension Interpreting Make an inference based on characters and character traits, make an inference based on feelings Make an inference based on drawing conclusions Make an inference based on drawing conclusions Make an inference based on drawing conclusions Students learn to identify similarities and differences in stories Students learn to identify similarities and differences in stories	4	Vowel Review	Identify short vowel sounds and sound-letter correspondences and correctly read		
Word Analysis	5	Patterns	Recall a three-part pattern from memory; students identify vowel-consonant		
Mord Families	6	Classifying			
Antonyms Definition and examples of antonyms; students practice finding antonyms for words	Word	d Analysis			
Homophones Definition and examples of homophones; students learn that words can sound alike but have different meanings	7	Word Families	Changing the first or last letters to form word families		
alike but have different meanings Compound Words Definition and examples of compound words; students identify compound words	8	Antonyms			
Synonyms Definition and examples of synonyms; students practice finding a synonym for words	9	Homophones			
practice finding a synonym for words Definition and examples of phonograms, students practice finding phonograms Correct use of prefixes including the prefix /ur/ Suffixes Correct use of the suffixes /s/, /es/, /ies/, /ing/, /ed/, etc. Divide words into syllables, count the number of syllables in a word Root Words Root words without spelling changes, root words with spelling changes Introducing Nouns Students learn the definition of nouns and to find nouns in sentences Students learn the definition of verbs and to locate verbs in sentences Students learn that plural means more than one; students learn how some plurals are formed Predicting Outcomes Tell what will happen next in a story; students recognize that certain actions might result in certain outcomes Comprehension Ideas Interpreting Make an inference based on characters and character traits, make an inference based on feelings Drawing Conclusions Ake an inference based on drawing conclusions Listen for details in stories, recall details from stories Students learn to identify similarities and differences in stories Students learn to identify similarities and differences in stories	10	Compound Words			
Prefixes Correct use of prefixes including the prefix /ur/ Suffixes Correct use of the suffixes /s/, /es/, /ies/, /ing/, /ed/, etc. Syllables Divide words into syllables, count the number of syllables in a word	11	Synonyms			
Suffixes Correct use of the suffixes /s/, /es/, /ies/, /ing/, /ed/, etc.	12	Phonograms	Definition and examples of phonograms, students practice finding phonograms		
15 Syllables Divide words into syllables, count the number of syllables in a word	13	Prefixes	Correct use of prefixes including the prefix /ur/		
16Root WordsRoot words without spelling changes, root words with spelling changes17Introducing NounsStudents learn the definition of nouns and to find nouns in sentences18Introducing VerbsStudents learn the definition of verbs and to locate verbs in sentences19PluralsStudents learn that plural means more than one; students learn how some plurals are formed20Predicting OutcomesTell what will happen next in a story; students recognize that certain actions might result in certain outcomesComprehensionRecognizing Main IdeasIdentify main idea and details, recognize the title as a source of the main idea, determine the key words and topic sentence22Interpreting Make an inference based on characters and character traits, make an inference based on feelings23Drawing Make an inference based on drawing conclusions24Story DetailsListen for details in stories, recall details from stories25Similarity & DifferenceStudents learn to identify similarities and differences in stories	14	Suffixes	Correct use of the suffixes /s/, /es/, /ies/, /ing/, /ed/, etc.		
17Introducing NounsStudents learn the definition of nouns and to find nouns in sentences18Introducing VerbsStudents learn the definition of verbs and to locate verbs in sentences19PluralsStudents learn that plural means more than one; students learn how some plurals are formed20Predicting OutcomesTell what will happen next in a story; students recognize that certain actions might result in certain outcomesComprehensionIdentify main idea and details, recognize the title as a source of the main idea, determine the key words and topic sentence22Interpreting FeelingsMake an inference based on characters and character traits, make an inference based on feelings23Drawing ConclusionsMake an inference based on drawing conclusions24Story DetailsListen for details in stories, recall details from stories25Similarity & Students learn to identify similarities and differences in stories	15	Syllables	Divide words into syllables, count the number of syllables in a word		
Introducing Verbs Students learn the definition of verbs and to locate verbs in sentences	16	Root Words	Root words without spelling changes, root words with spelling changes		
Plurals Students learn that plural means more than one; students learn how some plurals are formed Predicting Outcomes Tell what will happen next in a story; students recognize that certain actions might result in certain outcomes Predicting Outcomes Tell what will happen next in a story; students recognize that certain actions might result in certain outcomes Ideas Identify main idea and details, recognize the title as a source of the main idea, determine the key words and topic sentence Interpreting Feelings Make an inference based on characters and character traits, make an inference based on feelings Drawing Conclusions Identify main idea and details, recognize the title as a source of the main idea, determine the key words and topic sentence Make an inference based on characters and character traits, make an inference based on drawing conclusions Conclusions Listen for details in stories, recall details from stories Students learn to identify similarities and differences in stories Difference	17	Introducing Nouns	Students learn the definition of nouns and to find nouns in sentences		
are formed Tell what will happen next in a story; students recognize that certain actions might result in certain outcomes Comprehension Recognizing Main Identify main idea and details, recognize the title as a source of the main idea, determine the key words and topic sentence Interpreting Make an inference based on characters and character traits, make an inference based on feelings Drawing Make an inference based on drawing conclusions The provided Hamber of Students Interpreting are provided Hamber of Students Interpreting based on drawing conclusions Listen for details in stories, recall details from stories Students learn to identify similarities and differences in stories	18	Introducing Verbs	Students learn the definition of verbs and to locate verbs in sentences		
Outcomesmight result in certain outcomesComprehensionMain Identify main idea and details, recognize the title as a source of the main idea, determine the key words and topic sentence22Interpreting FeelingsMake an inference based on characters and character traits, make an inference based on feelings23Drawing ConclusionsMake an inference based on drawing conclusions24Story DetailsListen for details in stories, recall details from stories25Similarity & DifferenceStudents learn to identify similarities and differences in stories	19	Plurals	Students learn that plural means more than one; students learn how some plurals are formed		
Recognizing Main Identify main idea and details, recognize the title as a source of the main idea, determine the key words and topic sentence Interpreting Feelings Make an inference based on characters and character traits, make an inference based on feelings Drawing Conclusions Make an inference based on drawing conclusions Listen for details in stories, recall details from stories Students learn to identify similarities and differences in stories	20				
Ideas determine the key words and topic sentence Make an inference based on characters and character traits, make an inference based on feelings Drawing Conclusions Story Details Listen for details in stories, recall details from stories Similarity & Difference Students learn to identify similarities and differences in stories	Comprehension				
Feelings based on feelings 23 Drawing Conclusions 24 Story Details Listen for details in stories, recall details from stories 25 Similarity & Students learn to identify similarities and differences in stories Difference	21				
Conclusions 24 Story Details Listen for details in stories, recall details from stories 25 Similarity & Students learn to identify similarities and differences in stories Difference	22	1 0	· ·		
25 Similarity & Students learn to identify similarities and differences in stories Difference	23	Drawing			
25 Similarity & Students learn to identify similarities and differences in stories Difference	24	Story Details	Listen for details in stories, recall details from stories		
		Similarity &			
	26		Student learn to differentiate between fact and make believe		

	Believe			
27	Make-Believe	Students invent stories that are not real; learn how to distinguish between what		
	Stories	is real and what is not real or true		
28	Understanding	Definition and example of setting; how setting is part of a story		
	Setting			
29	Cause and Effect	Definitions of cause and effect; students identify various causes and effects by		
		reading clues		
30	Sorting	Students compare elements of stories		
	Information			
31	Figurative	Understand figurative language used in stories and poetry, identify types of		
	Language	animals personified in a story personification		
32	Purpose in Writing	Distinguish the author's purpose		
34	Context Clues	Select the correct meaning for unfamiliar words by using context clues, use		
		picture clues and syntax to identify word and sentence meaning		
35	Sequence	The concept of sequencing, students determine the sequence of sentences		
36	Point of View	Determine who is telling the story		
37	Summarizing	Definition and examples of summary; students read a story and identify points to		
		be included in a summary		
38	Phrasing	Moves from word by word reading to phrasing words together		
39	Multiple Meanings	Understand multiple meanings of words		
40	Spatial-Position	Differentiate which picture shows the correct spatial relationship (in, on, beside,		
	Words	above, below, next to, between, about, against)		
41	Charts and Graphs	Gain information from charts, graphs and diagrams to answer questions		
Literary Skills				
42	Five "W"	Answer the who, what when, where, why and how questions in complete		
	Questions	sentences		
43	Poetry	Reading and understanding different types of poetry, recognizing and using		
		sound words (onomatopoeia)
